HASHFLAG

Light · Regular · Medium · Bold

MILITARY STENCIL GEOMETRIC DISPLAY · ADAPT. BUILD. OVERCOME.

ADAPT. // BUILD. // OVERCOME.

LIGHT 300 Stroke: 70 · Body Copy · Long-Form Text

The stencil break is military DNA in type form.

Born from spray-painted crates, munitions labels, and field markings. HashFlag Light carries that legacy at reading sizes. Clean enough for paragraphs, distinct enough to never be mistaken for anything generic. ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 0123456789

REGULAR 400 Stroke: 100 · Default Body · UI Text

Every character engineered, not drawn.

The workhorse of the family. Regular handles UI labels, navigation, card descriptions, and paragraph text where you need presence without weight. This is where HashFlag replaces Gilroy in your stack. ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 0123456789

MEDIUM 500 Stroke: 120 · Subheadings · Emphasis

Construct what lasts. Engineer what matters.

The bridge weight. Medium gives you typographic hierarchy without jumping to Bold. Subheadings, callouts, navigation items, button labels, and anywhere you need emphasis that doesn't shout. ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 0123456789

BOLD 700 Stroke: 140 · Headlines · Display · Hero

Overcome. Ship what the world needs.

The original. Bold commands attention at any size. Hero sections, page titles, brand marks, and anywhere the message needs to land with force. This is the weight that started it all. ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 0123456789

01

ADAPT — MILITARY HERITAGE

Adapt. The mission changes. The discipline doesn't.

The stencil break is military DNA in type form — born from spray-painted crates, munitions labels, and field markings. HashFlag carries that legacy in every letterform. The mission changes when you leave service, but the discipline never does. You adapted to every environment the military threw at you. Now adapt to the terminal.

02

BUILD — ENGINEERING WITH PURPOSE

Build. Construct what lasts. Engineer what matters.

Each character is assembled from circles, rectangles, and precise angles — the same modular thinking that builds scalable systems. No decoration without function. No stroke without intention. You learned to build under pressure. Now build products. Build teams. Build futures.

03

OVERCOME — SHIPPING THE FUTURE

Overcome. Every barrier between you and the life you earned.

HashFlag is the typeface of transition — military precision meeting tech ambition. The job search. The imposter syndrome. The career pivot. None of it is harder than what you already survived. Overcome it all and ship what the world needs.

WEIGHT COMPARISON

LIGHT 300

Aa Gg

Paragraphs, descriptions, and long-form content where readability is the mission.

REGULAR 400

Aa Gg

UI text, navigation, cards, and the default voice of any HashFlag interface.

MEDIUM 500

Aa Gg

Subheads, emphasis, callouts, and the typographic bridge between body and display.

BOLD 700

Aa Gg

Headlines, hero text, brand marks, and anywhere the message must land with force.
